

Academic Resources – providing the right support

With your generosity, we can make projects like these come to life.

Junior School Language Lab – to promote confidence in listening and speaking skills

Automated weather station – to further enhance the interactive teaching of Geography

Laser and plasma cutters – to enhance pupils ability to produce large scale and bespoke projects

Facility Development

– excellence in the 21st Century

With your generosity, we can make projects like these come to life.

An improved play area for Junior School pupils – ensuring a safe and fun break time

Improvements to the Cricket Pavilion – providing better facilities for all players and visitors within the iconic building

Creation of a Chaplaincy and drop-in centre in the Chapel – enhancing pastoral care

A Scholarship and Bursary Endowment Fund

– improving access and recognising exceptional ability

Unlike some other independent schools, Cheltenham College does not currently have a substantial historic endowment for scholarships and bursaries. Our aim is to build an endowment of £1.5million.

Continuing to build a Scholarship and Bursary Endowment Fund will enable the College to award scholarships and bursaries to deserving pupils in the Junior and Senior Schools.

Scholarships are merit based and are awarded to those who not only have existing exceptional ability but to those who show high potential. Also we are committed to widening access to those who might not otherwise be able to attend by providing bursaries.

“You have given my daughter the most precious gift, an excellent education. Thank you so much. This is perhaps the most important building block in her life.”

Lindy Sharpe, Current Parent.
